

# 2006 STN<sup>®</sup> Price List

## Effective January 1, 2006

This price list details pricing for databases available via STN. Functionally similar databases are grouped together in three sections:

- Bibliographic databases
- Numeric property databases
- Chemical structure databases

In addition pricing information for general STN commands and services is also available.

Footnotes applicable to each section are printed at the end of the section. General information that applies to all sections is available on page 4.

Database and software availability, as well as all prices, are subject to change without notice.

The scientific and technical databases available via STN can be accessed via five interfaces:

- STN Express<sup>®</sup> with Discover!<sup>™</sup>
- STN<sup>®</sup> on the Web<sup>SM</sup>
- STN Easy<sup>®</sup>
- STN Easy<sup>®</sup> for Intranets<sup>SM</sup>
- STN AnaVist

STN Easy provides economical web access to sci-tech information for the occasional searcher. STN Easy allows the following types of searches in over 100 of the most popular STN databases:

- Basic and advanced Boolean
- CAS Registry Number<sup>®</sup>
- Patent
- Predefined searches
- Subject searches, e.g. chemistry, medicine, pharmaceuticals, regulatory

The interface is available in five languages. With a standard STN account, there is no additional cost to use STN Easy.

More information is available at [stn-international.de/stninterfaces/stneasy/stn\\_easy.html](http://stn-international.de/stninterfaces/stneasy/stn_easy.html)

STN Express with Discover! provides comprehensive desktop access to over 200 scientific and technical databases. Search STN with all the power and flexibility of commands, or use Discover! wizards for simple, point-and-click access. STN Express with Discover! lets you

- Build chemical structure, reaction, and stereospecific queries
- Conduct BLAST<sup>®</sup> sequence searches
- Analyze and present STN search results with powerful post-processing tools
- Modify, import, and export structures
- Link to the full text of original documents

Plus, the Analysis Edition (available for Windows<sup>®</sup> only) lets you search, analyze, visualize, and discover the world of sci-tech information through:

- Advanced results analysis, including substance and patent information analysis
- Normalization of data
- Additional search aids

More information is available at [stn-international.de/stninterfaces/stnexpress/stn\\_exp.html](http://stn-international.de/stninterfaces/stnexpress/stn_exp.html)

STN on the Web provides the power of STN with the convenience of the Web, you can

- Access STN anywhere, anytime
- Use command line functionality or assistants that provide guidance with setting up alerts, patent searching, sequence searching, and more
- Conduct BLAST sequence searches
- Use a free structure drawing application
- Link to the full text of original documents

You can use STN on the Web at no additional cost with a standard STN account.

More information is available at [stn-international.de/stninterfaces/stnow/stn\\_ow.html](http://stn-international.de/stninterfaces/stnow/stn_ow.html)

STN AnaVist is powerful interactive analysis and visualization software that offers a variety of ways to analyze search results from scientific literature and patents as well as visualize patterns and trends in the research. It can help you answer complex questions as well as provide information that can be used to make faster and better business decisions. More information is available at [stn-international.de/stninterfaces/stnavist/stn\\_anavist.html](http://stn-international.de/stninterfaces/stnavist/stn_anavist.html)

STN Easy for Intranets provides customized searching for individual end users or designated Workgroups via an organization's intranet. The Site Administrator can:

- Blend the look-and-feel of the STN Easy interface with an organization's intranet
- Establish customized search environments for various Workgroups within an organization
- Determine the databases in which users may search
- Provide the results of predefined searches or current-awareness searches to users
- Track expenditures by Charge Black Code
- Access usage reports

More information is available at [stn-international.de/stninterfaces/stneasyintranets/index.html](http://stn-international.de/stninterfaces/stneasyintranets/index.html)

# STN International

## Prices in EURO

01 January 2006

### General Notes

The following prices apply for STN International ("Classic") and STN on the Web.

Prices for STN Easy are available at <http://www.stn-international.de/service/prices/easyeneuro.pdf> ,  
and for STN AnaVist at [http://www.stn-international.de/service/prices/anavist\\_prices.html](http://www.stn-international.de/service/prices/anavist_prices.html) .

The following notes apply to the price list as a whole:

The price of a custom display or print format is the price of the least expensive combination that contains all of the fields requested. HIT/KWIC display/print formats are available in many files, and the pricing is generally customized by file. Please use the online HELP COST feature or STNGUIDE for detailed pricing.

Please refer to STNGUIDE or the database summary sheets to determine the default display/print format for specific files. STNGUIDE contains the information available in the printed database summary sheets and the prices in the online HELP COST message. Database summary sheets are available in print and online at [http://www.stn-international.de/stndatabases/c\\_datab.html](http://www.stn-international.de/stndatabases/c_datab.html).

Connect hour charges are rounded to the nearest hundredth of an hour.

For databases, for which the the German VAT rate (currently 16%) applies, prices are given additionally with VAT added. For some other databases offered through STN, the VAT rate valid in the customer's country of domicile will be invoiced.

For detailed pricing information, refer to STNGUIDE or the online HELP COST messages.

With this current price list, all previous prices are no longer valid.

04.01.2006

<b>General Charges (Prices in EURO)</b>	<i>incl. VAT</i>	
<b>Price for opening an account (incl. one loginid)</b>	34.00	39.44
<b>Change of currency</b>	34.00	39.44

<b>Additional handling services</b> (per 15 minutes)	34.00	39.44
These are: change password; add, change, delete SDIs; move saved items from one loginid to another; delete saved items; perform searches or statistical analysis on customer loginid. For additional information please contact STN Help Desk Europe		
<b>Annual Fee</b>	34.00	39.44
An annual fee per loginid will be charged on the August invoice. Loginids not concerned include those set up within the current calendar year as well as loginids valid for STN Easy only, the academic programs, and those listed under fixed fee agreements. A maximum of 10 loginids only will be invoiced per account.		
<b>SAVED Items</b>		
SAVED Queries	1.45	1.68
SAVED Answer Sets	1.45	1.68
SAVED L-Number Lists	1.45	1.68
<b>Please note:</b> SAVED items will be charged only if they are imported from the previous month.		
<b>STNIndex</b> (per hour)	49.00	1)
<b>STN Express V8.0 WIN</b>		
<b>Variable Group (R-group) Analysis Table Tool</b>		
Service fee for invoking the Save for R-group Analysis Wizard	4.44	1)
<b>STN TERMSET COMMAND Charges:</b>		
<b>FOCUS</b> (per command)	3.25	1)
<b>TRANSFER</b> (per command)	9.65	1)
<b>TABULATE</b> (per command)	28.50	1)
<b>SmartSELECT</b> (1 – 1.000 answers)	9.65	1)
(1.001 - 10.000 answers)	16.50	1)
(10.001 - 50.000 answers)	22.10	1)
<b>ANALYZE</b> (1 – 1.000 answers)	9.65	1)
(1.001 - 10.000 answers)	16.50	1)
(10.001 - 50.000 answers)	22.10	1)
<b>ANALYZE PLUS</b> always following an ANALYZE or TABULATE command		
(1 – 1.000 answers)	17.70	1)
(1.001 - 10.000 answers)	22.00	1)
(10.001 - 50.000 answers)	31.10	1)
<b>Telecommunication</b> per hour - Datex-P, X.25	10.00	11.60
- Internet / TELNET	6.00	6.96

1) VAT will be added according to the VAT rate valid in the customer's country of domicile.

#### STN Information Keep & Share Program

The STN Information Keep & Share Program provides you with an easy way to:

Keep (archive) STN search results for future access by you or others within your worldwide organization, and Share (distribute) electronic or paper copies of STN search results to others within your organization.

Most database producers participate in the STN Information Keep & Share Program. More information, including a list of participating databases, is available at <http://www.stn-international.de/stndatabases/keepshare/>.

- 1) Search-term charges apply to CAS Registry Numbers (RNs) used as search terms, except when the RNs are searched as the result of an L-number crossover from the REGISTRY file. EUR 9.98 will be incurred for each CAS Registry Number obtained from the BEILSTEIN file and searched in CAS files.
- 2) In the CA, CAPLUS, CERAB, CIN, and GENBANK files, SDI search term charges also apply. In CAS files, search term charges apply to CAS Registry Numbers used as search terms. Enter HELP COST at an arrow prompt in the file for the SDI search term prices.
- 3) Price listed is for the ALL format only. Enter HELP COST at an arrow prompt in the file for the charges for other formats and to view the per record ARCHIVE and REDISTRIBUTE surcharges, if applicable.
- 4) Enter HELP COST at an arrow prompt in the file for discount information.
- 5) SELECT fees apply to this file. Enter HELP COST at an arrow prompt in the file for the prices.
- 6) A discount is available on all items. Enter HELP COST at an arrow prompt in the file for more information.
- 7) Enter HELP UPDATE at an arrow prompt in the file for more information.
- 8) GENBANK SDIs run weekly, except for the week before GenBank is reloaded, then SDIs run biweekly. The file is reloaded once per quarter.
- 9) All SDI search fees include up to 20 SDI prints delivered offline, by electronic mail, or by fax. Additional SDI prints are charged at the list prices above. Online displays of SDI answers are charged at the list prices above.
- 10) Subscribers please note that you access at discounted rates. Preferential rates are 25%, 40% or 50% discount on the standard rate depending on your subscription. DISPLAY COST only shows the standard rate. The discounted rates are given in your monthly invoice.
- 11) You have the option to search CA, CAOLD, CAPLUS, CHEMLIST, and CIN with no search term charges and higher connect hour fees. To use the connect hour option, enter the alternate file name: HCA, HCAOLD, HCAPLUS, HCHEMLIST, or HCIN.
- 12) Per billable field. Please refer to HELP COST for more details.
- 13) This file is also available with a fixed fee. Please contact FIZ Karlsruhe if you are interested.
- 14) Offline print postage fee EUR 0.16 resp. EUR 0.19 incl. VAT (additional per answer).
- 15) STNmail storage fee per kbyte EUR 0.22 resp. EUR 0.26 incl. VAT. STNmail messages will be charged only if they are imported from the previous month.
- 16) A discount is granted to Crossfire customers.
- 17) A 75% discount is applied to Leatherhead members on all prices except for the offline print postage fee.
- 19) Subscriber File: BIOTECHDS; Non-Subscriber File: BIOTECHABS
- 20) Subscriber File: DRUGMONOG; Non-Subscriber File: DRUGMONOG2
- 21) Subscriber File: TULSA; Non-Subscriber File: TULSA2
- 22) Subscriber Files: WPIDS, WPIX; Non-Subscriber File: WPINDEX
- 23) The prices relate to text SDIs, for structure SDI prices please enter HELP COST at an arrow prompt in the file.
- 24) Display resp. Print ALL of previous records (older than 4 weeks): EUR 1.68 resp. EUR 1.95 incl. VAT.
- 25) VAT will be added according to the VAT rate valid in the customer's country of domicile.

## Learning Files

LBIBLIO, LCA, LCASREACT, LDPCI, LDRUG, LEMBASE, LMARPAT, LMEDLINE, LINSPEC, LPATDPA, LREGISTRY, and LWPI are **learning files** designed for low-cost training. These files are not updated. Connect hour fees – and telecommunication fees – are the only charges that apply to these files. Connect hour fees are EUR 27.00 resp. EUR 31.32 incl. VAT for LBIBLIO, LDPCI, LDRUG, LINSPEC, LPATDPA, and LWPI; EUR 13.00 for LCA, LCASREACT, LEMBASE, LMARPAT, LMEDLINE, and LREGISTRY<sup>(7)</sup>.

1) There is no charge for screen terms, except for screen-only searches. There is no select fee for L# crossover to CASREACT.

2) Bibliographic data displays are priced as in the CA file. Enter HELP COST at an arrow prompt in the file for detailed pricing information.

3) Numeric property charges apply to certain fields. Enter HELP COST at an arrow prompt in the file for detailed pricing information.

4) Price is for subset search on structure-search answer sets only - subset searches on text-search answer sets are charged at normal structure-search rates. A text-search answer set is defined as one produced by (1) a search using dictionary terms or (2) a search using dictionary terms or dictionary search L# answer set(s) combined with one or more structure search L# answer sets.

5) Price is for subset search on structure-search answer sets only - subset searches on text-search answer sets are charged at normal structure-search rates. A text-search answer set is defined as one produced by (1) a search using text terms or (2) a text term or a text-search L# answer set(s) combined with one or more structure-search L# answer sets.

6) Other free formats are available. Please refer to HELP COST or STNGUIDE for details.

7) There is an additional fee of EUR 0.36 per answer when the DOWNLOAD command is employed.

8) There is no select fee for RN crossover by L# into any CAS file. The select fee does apply to RN crossovers by L# from the REGISTRY file into any non-CAS file on STN.

9) Surcharge for Print Fees. Please refer to HELP COST or STNGUIDE.

10) EUR 9.98 will be incurred for each CAS Registry Number obtained from the BEILSTEIN file and searched in CAS files.

11) Refer to HELP COST at an arrow prompt to view the per record ARCHIVE and REDISTRIBUTE surcharges, if applicable.

12) The prices relate to text SDIs, for structure SDI prices, please enter HELP COST at an arrow prompt in the file.

13) VAT will be added according to the VAT rate valid in the customer's country of domicile.
