

# 2006 STN® Price List

## Effective January 1, 2006

This price list details pricing for databases available via STN. Functionally similar databases are grouped together in three sections:

- Bibliographic databases
- Numeric property databases
- Chemical structure databases

In addition pricing information for general STN commands and services is also available.

Footnotes applicable to each section are printed at the end of the section. General information that applies to all sections is available on page 4.

Database and software availability, as well as all prices, are subject to change without notice.

The scientific and technical databases available via STN can be accessed via five interfaces:

- STN Express® with Discover!™
- STN® on the Web<sup>SM</sup>
- STN Easy®
- STN Easy® for Intranets<sup>SM</sup>
- STN AnaVist

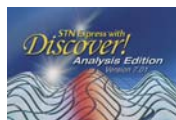

# STN Easy®

STN Easy provides economical web access to sci-tech information for the occasional searcher. STN Easy allows the following types of searches in over 100 of the most popular STN databases:

- Basic and advanced Boolean
- CAS Registry Number®
- Patent
- Predefined searches
- Subject searches, e.g. chemistry, medicine, pharmaceuticals, regulatory

The interface is available in five languages. With a standard STN account, there is no additional cost to use STN Easy.

STN Express with Discover! provides comprehensive desktop access to over 200 scientific and technical databases. Search STN with all the power and flexibility of commands, or use Discover! wizards for simple, point-and-click access. STN Express with Discover! lets you

- Build chemical structure, reaction, and stereospecific queries
- Conduct BLAST® sequence searches
- Analyze and present STN search results with powerful post-processing tools
- Modify, import, and export structures
- Link to the full text of original documents

Plus, the Analysis Edition (available for Windows® only) lets you search, analyze, visualize, and discover the world of sci-tech information through:

- Advanced results analysis, including substance and patent information analysis
- Normalization of data
- Additional search aids

## Prices in U.S. Dollars

01 January 2006

### General Notes

The following prices apply for STN International ("Classic") and STN on the Web.

Prices for STN Easy are available at <http://www.stn-international.de/service/prices/easyeneuro.pdf> ,  
and for STN AnaVist at [http://www.stn-international.de/service/prices/anavist\\_prices.html](http://www.stn-international.de/service/prices/anavist_prices.html) .

The following notes apply to the price list as a whole:

The price of a custom display or print format is the price of the least expensive combination that contains all of the fields requested. HIT/KWIC display/print formats are available in many files, and the pricing is generally customized by file. Please use the online HELP COST feature or STNGUIDE for detailed pricing.

Please refer to STNGUIDE or the database summary sheets to determine the default display/print format for specific files. STNGUIDE contains the information available in the printed database summary sheets and the prices in the online HELP COST message. Database summary sheets are available in print and online at [http://www.stn-international.de/stndatabases/c\\_datab.html](http://www.stn-international.de/stndatabases/c_datab.html).

Connect hour charges are rounded to the nearest hundredth of an hour.

For databases, for which the German VAT rate (currently 16%) applies, prices are given additionally with VAT added. For some other databases offered through STN, the VAT rate valid in the customer's country of domicile will be invoiced.

For detailed pricing information, refer to STNGUIDE or the online HELP COST messages.

With this current price list, all previous prices are no longer valid.

- 1) Search-term charges apply to CAS Registry Numbers (RNs) used as search terms, except when the RNs are searched as the result of an L-number crossover from the REGISTRY file. USD 11.25 will be incurred for each CAS Registry Number obtained from the BEILSTEIN file and searched in CAS files.
- 2) In the CA, CAPLUS, CERAB, CIN, and GENBANK files, SDI search term charges also apply. In CAS files, search term charges apply to CAS Registry Numbers used as search terms. Enter HELP COST at an arrow prompt in the file for the SDI search term prices.
- 3) Price listed is for the ALL format only. Enter HELP COST at an arrow prompt in the file for the charges for other formats and to view the per record ARCHIVE and REDISTRIBUTE surcharges, if applicable.
- 4) Enter HELP COST at an arrow prompt in the file for discount information.
- 5) SELECT fees apply to this file. Enter HELP COST at an arrow prompt in the file for the prices.
- 6) A discount is available on all items. Enter HELP COST at an arrow prompt in the file for more information.
- 7) Enter HELP UPDATE at an arrow prompt in the file for more information.
- 8) GENBANK SDIs run weekly, except for the week before GenBank is reloaded, then SDIs run biweekly. The file is reloaded once per quarter.
- 9) All SDI search fees include up to 20 SDI prints delivered offline, by electronic mail, or by fax. Additional SDI prints are charged at the list prices above. Online displays of SDI answers are charged at the list prices above.
- 10) Subscribers please note that you access at discounted rates. Preferential rates are 25%, 40% or 50% discount on the standard rate depending on your subscription. DISPLAY COST only shows the standard rate. The discounted rates are given in your monthly invoice.
- 11) You have the option to search CA, CAOLD, CAPLUS, CHEMLIST, and CIN with no search term charges and higher connect hour fees. To use the connect hour option, enter the alternate file name: HCA, HCAOLD, HCAPLUS, HCHEMLIST, or HCIN.
